

Mill Chase Academy

Ambition, Courage, Excellence

Jordan Wells
Mill Chase Student September 2008 to July 2013

College & Qualifications Achieved

Alton College ICT and Art & Graphic Design.
Basingstoke College of Technology - Apprenticeship in Marketing and Schools Liaison.

Current Role

Marketing and Schools Liaison Apprentice.

Achievements

Gaining a place on the apprenticeship course. I am thoroughly enjoying it. I have become more confident as a person with the work I do, and have also gained skills in customer service too. Whilst on my apprenticeship I am learning various skills about business and marketing as well. I am learning so much by working. I have benefited from on the job more practical learning than by doing classroom based learning.

Personal Message

When you leave school and later look back on it, you realise how much you miss it, both the lessons and the social side. The staff were always helpful and made learning enjoyable; they always made sure your education was a priority. It prepared me for life after school because I had learned key skills needed and the qualifications I received also helped me to join Alton college as well as my apprenticeship. It's weird going back to the school a year later to support at parent evenings and represent Basingstoke College of Technology, but it's a good weird!
