

26 March 2020

Dear Parents/Carers,

To support your children with remote learning we have created a Youtube Channel to answer some of the most common questions we have encountered this week. The Youtube channel is titled "Oakmoor School Youtube Channel". It contains tutorials to assist pupils with learning from home. So far we have tutorials that cover:-

1. Accessing Office365 from home (Email)
2. Sending work to Teachers correctly (Sending attachments)
3. How to access your online storage at home
4. How to access your free version of Microsoft Office (Word, Powerpoint, Excel) from home

We strongly encourage you to subscribe to this channel as there will be more content over the coming weeks that will support your child's remote learning. To access the Channel simply click [here](#) or copy and paste this address into a web browser <https://www.youtube.com/channel/UCgB-7z9jbk9Yr1l-TxlbIrg>

We have also had a number of students experiencing problems with accessing and logging onto SMHW. If you are experiencing issues please email our IT Department on the following email:- ITServices@oakmoor.hants.sch.uk

Yours sincerely

Mr R. Riley
Academic & Pastoral Leader Green House
