

# GCSE Geography

At Oakmoor we follow the Edexcel Geography A GCSE specification from year 9 -11.

Students sit three papers. Paper 1 assesses knowledge of the physical environment, paper 2 looks at the human environment and paper 3 examines students knowledge and understanding of geographical investigations including fieldwork and UK Challenges.

*Please note that due to the pandemic fieldwork is not required for 2022 assessments.*

The table below outlines the content taught over the 3 years – this is a flexible schedule and may be altered.

Physical Geography

Human Geography

Geographical Investigation

	Autumn	Spring	Summer
Yr9	<p>The Changing Landscapes of the UK</p> <p>Coastal landscapes &amp; Processes</p>	River Landscapes & Processes	Changing Cities
